Hello,

I support the USPTO and USPTO Director Andrei Iancu's latest proposed rule changes consisting of

- **Apply the Phillips standard of claim construction used in Article III courts.**
- **Defer to prior constructions, absent clear error.**

I also support the USPTO Director Andrei Iancu's viewpoints on getting the 101 Patent Eligibility factors to be better understood, so inventors have a better understanding of what can be patented.

Under the new Director and President Trump, I am optimistic that the US Patent System will eventually be restored.

Sincerely,

Michael Schulze
